

SOPHIA THAPA MAGAR

Jhamsikhel, Lalitpur | 9869686538 | sophia.thapa55@gmail.com | <https://github.com/sophiathapa>

PROFESSIONAL SUMMARY

Computer Engineering graduate with internship experience in software development and cross-functional team collaboration. Skilled in coordinating project tasks, communicating with stakeholders, tracking progress, managing priorities, and supporting project delivery in agile environments. Strong organizational, analytical, and problem-solving abilities with experience working in fast-paced teams to ensure successful execution of business and technical objectives.

EDUCATION

Kantipur Engineering College

Bachelor of Engineering in Computer Engineering

2021 - 2025

Dhapakhel, Lalitpur

EXPERIENCE

Wolfmatrix

Backend Intern

Feb 2026 – May 2026

Sanepa, Lalitpur

- Designed and developed a Role-Based Access Control (RBAC) system that dynamically managed staff permissions and sidebar access based on assigned roles within shipper organizations.
- Collaborated with frontend developers, QA testers, and team members to gather requirements, troubleshoot issues, and deliver new features.
- Participated in sprint planning, task discussions, and code reviews to ensure timely completion of development tasks.
- Resolved bugs and optimized backend functionality across logistics, bidding, and shipment-tracking modules, improving system performance and maintainability.

Aster Innovations

Frontend Intern

Jun 2025 – Oct 2025

Sitakwa Marg, Lalitpur

- Developed responsive and interactive user interfaces using React.js, JavaScript, and modern frontend development practices.
- Built reusable UI components to improve development efficiency and maintain consistency across the application.
- Participated in requirement discussions, testing activities, and feature implementation to support project objectives.
- Worked within a team environment to identify issues, propose solutions, and enhance overall user experience.

PROJECTS

Samiksha Sansar | JavaScript, Tailwind CSS, shadcn/ui, React, Redux, Express.js, Node.js, MongoDB

- Developed a full-stack book management platform using the MERN stack.
- Built responsive user interfaces using React, Tailwind CSS, and shadcn/ui while implementing Redux for state management.
- Collaborated on feature planning, development, testing, and deployment to ensure successful project completion.

- Implemented RESTful APIs, authentication, authorization, and database integration using Node.js, Express.js, JWT, and MongoDB.

Yatri | JavaScript, Tailwind CSS, shadcn/ui, leaflet, React, Redux, Express.js, Node.js, MongoDB

- Contributed to the development of a vehicle and bus management system using the MERN stack.
- Developed features related to route management and real-time vehicle tracking.
- Worked with team members to implement interactive maps, optimize route calculations, and improve application functionality.
- Participated in testing, debugging, and feature enhancements throughout the development lifecycle.

TECHNICAL SKILLS

Soft Skills: Communication, Team Collaboration, Leadership, Time Management, Organizational Skills, Adaptability, Attention to Detail

Languages: JavaScript, TypeScript, HTML, CSS, Python

Frameworks/Libraries: Nest.js, Tailwind CSS, React, Next.js, Redux, Express.js

Tools: VS Code, GitHub, Postman, Figma, **Clickup**, **Jira**

Databases: MongoDB, PostgreSQL

ACHIEVEMENTS / CERTIFICATIONS

- Secured 3rd place at All Girls Hackathon organized by Women Leaders in Technology.
- Received certificate of participation at KEC LITE Inter College Technical Exhibition.
- Completed MERN Stack Development training at Broadway Infosys.
- Completed Python for Data Science course at KEC.
